## Trial of PFLP Terrorists Held in Israel Postponed

The closed military trial of the two West Germans held by Israel on charges of being involved in a PFLP attempt to shoot down an El Al airliner in Nairobi has been postponed indefinitely, according to a German press report from Israel. (See the 6 April issue.) The two, Brigitte Schultz and Thomas Reuter, have apparently not yet selected their defense counsel from a list of about 1,000 Israeli lawyers which has been provided them. Israel recently announced that an official German representative could be present at the trial. The Israelis are also holding three Palestinians on the same charges. It is not known whether the trial postponement also affects them. (UNCLASSIFIED)
